PROFESSIONAL SUMMARY

Motivated Computer Science and Artificial Intelligence student with beginner-to-intermediate knowledge of full-stack development, data structures, web technologies, and artificial intelligence. Interested in building practical software products and AI-powered applications.

TECHNICAL SKILLS

Programming	Java, Python, JavaScript, HTML, CSS
Frontend	React.js, Vite, Tailwind CSS, Responsive UI
Backend	Node.js, Express.js, FastAPI, REST API
Database	MongoDB, SQL
AI and Data	Machine Learning Basics, OCR, NLP, Resume Parsing
Tools	Git, GitHub, VS Code, Postman

PROJECTS

AgentResume AI — Resume Intelligence Platform

Built a full-stack resume analysis platform using React, FastAPI, PDF text extraction, OCR, resume parsing, ATS scoring, job-description matching, and career recommendations.

TECHBOT-X — AI Chatbot

Created a JavaScript-based chatbot with greetings, mathematical operations, useful website links, current time, weather integration, and dark/light mode.

Solar System Web Project

Designed an interactive educational website using HTML, CSS, and JavaScript to present information about planets and the solar system.

EDUCATION

Bachelor of Technology — Computer Science and Artificial Intelligence

BBDITM, Lucknow | Expected Graduation: 2028

CERTIFICATIONS AND ACTIVITIES

- Software Exhibition Certificate
- Participated in creative technical activities and student project demonstrations
- Interested in hackathons, AI research, web development, and open-source contribution

CAREER OBJECTIVE

To obtain an entry-level software development, frontend development, backend development, or AI engineering opportunity where I can improve my technical skills and contribute to real-world projects.
